A Great Companion for your iBook!

The MCE Battery Charger for the iBook provides a convenient means to simultaneously charge two Li-Ion batteries for the 12.1-inch dual-USB Apple iBook quickly and easily. All it takes is 3.5 hours to have two fully charged batteries ready for use at any time.

Helpful indicators provide instant user feedback on the completion of the charging process as well as on the detection of a battery malfunction. Built-in smart circuitry ensures that each battery is completely and safely recharged every time, providing users with the maximum usage time between recharging and also establishing reliable long-term battery life.

Since the MCE Battery Charger for the dual-USB iBook has a lightweight and compact design, it's easy to take it along in a carrying case to provide quick battery charging wherever you go.

The sleek design of the MCE Battery Charger nicely matches the attractive styling of the dual-USB iBook, making it a perfect companion for the computer you've come to value so much.
