## **MCE Technologies Authorized Upgrade Center Program**

Thank you for your interest in becoming an MCE Authorized Upgrade Center.

Some of MCE Technologies' products may only be installed by qualified repair and upgrade specialists due to the technical nature of their installation requirements. By becoming an MCE Authorized Upgrade Center you will be able to purchase and install these products in your customers' systems. Your company will also be listed on the MCE Technologies web site as an MCE Authorized Upgrade Center so customers in your area can come to you for the purchase and installation of these products. Once up and running, you will also have access to a special "Tech" area of our web site which will contain tech-related and pricing information for these particular products. We look forward to a mutually beneficial business relationship.

Please fill out the following application form and agreement and fax them back to us at 949-458-1803. We will review your application and notify you of the results within 48 to 72 hours.
