MCE Announces Battery Charger for Apple iBook

Irvine, CA – MCE Technologies, LLC today announced a battery charger for the Apple iBook. The MCE Battery Charger for iBook is a dual-bay battery charger capable of charging two Li-Ion batteries for the 12-inch dual-USB iBook simultaneously.

"The Apple dual-USB iBook is one of the best-selling notebook computers ever manufactured," said Arnold Ramirez, President of MCE Technologies, LLC. "We took note of the void in the marketplace of battery chargers for this system and have rushed to fill it with the MCE Battery Charger for iBook."

The MCE Battery Charger for iBook is a dual-bay battery charger capable of charging batteries in its two bays simultaneously. Standard charge time from empty to full for one or two batteries is 2.5 hours. Status LED's on the MCE Battery Charger for iBook indicate "charging", "full", and "battery error." The MCE Battery Charger for iBook is powered by an included universal AC adapter allowing the charger to be used on any voltage system worldwide. The MCE Battery Charger for iBook also has a compact size and a white exterior finish, making it a perfect sidekick for the Apple iBook.

The MCE Battery Charger for iBook will retail for \$149.00. Shipments of the MCE Battery Charger for iBook will begin February 20, 2002.

MCE Technologies, LLC designs and markets a wide range of Apple Macintosh - related products and solutions to distributors, dealers, and end-users domestically and internationally.
